PROFILE

Flutter Developer with over 2 years of experience in crafting user-focused and integrity-driven applications. I am committed to staying ahead of emerging technologies, particularly in the fast-evolving Web3 landscape. My goal is to grow with the industry, collaborate with exceptional teams, and contribute to a vision that delivers real value to the world.

SKILLS

Flutter
React
NestJS
Python
Postgresql
AWS
Solidity

EDUCATION

USC – Los Angeles, CA
2022
Data Analytics Certificate

NLC – Oroville, CA
2018
Electrical Linework Program Certificate

EXPERIENCE

Flutter / NestJS Developer – Tether RE
2023 – Present / Twin Falls, ID
Developed a real estate application focused on enhancing the safety of real estate agents. Key achievements include integrating the platform with a 24/7 monitoring center that provides immediate response when safety features are triggered. I have built and maintained all safety features across both the frontend and backend of the platform. I take great pride in my work, especially when accuracy is critical to ensuring user safety.

Jr. Data Analyst / Jr. React Developer - ThirtyThree
2022 – 2023 / Yorba Linda, CA
Developed and maintained an application aimed at modernizing the cell tower surveying process, replacing traditional pen-and-paper methods to prioritize efficiency, dependability, and data accuracy.
